 SAMSUNG MEDICAL CENTER

Program [Basic]

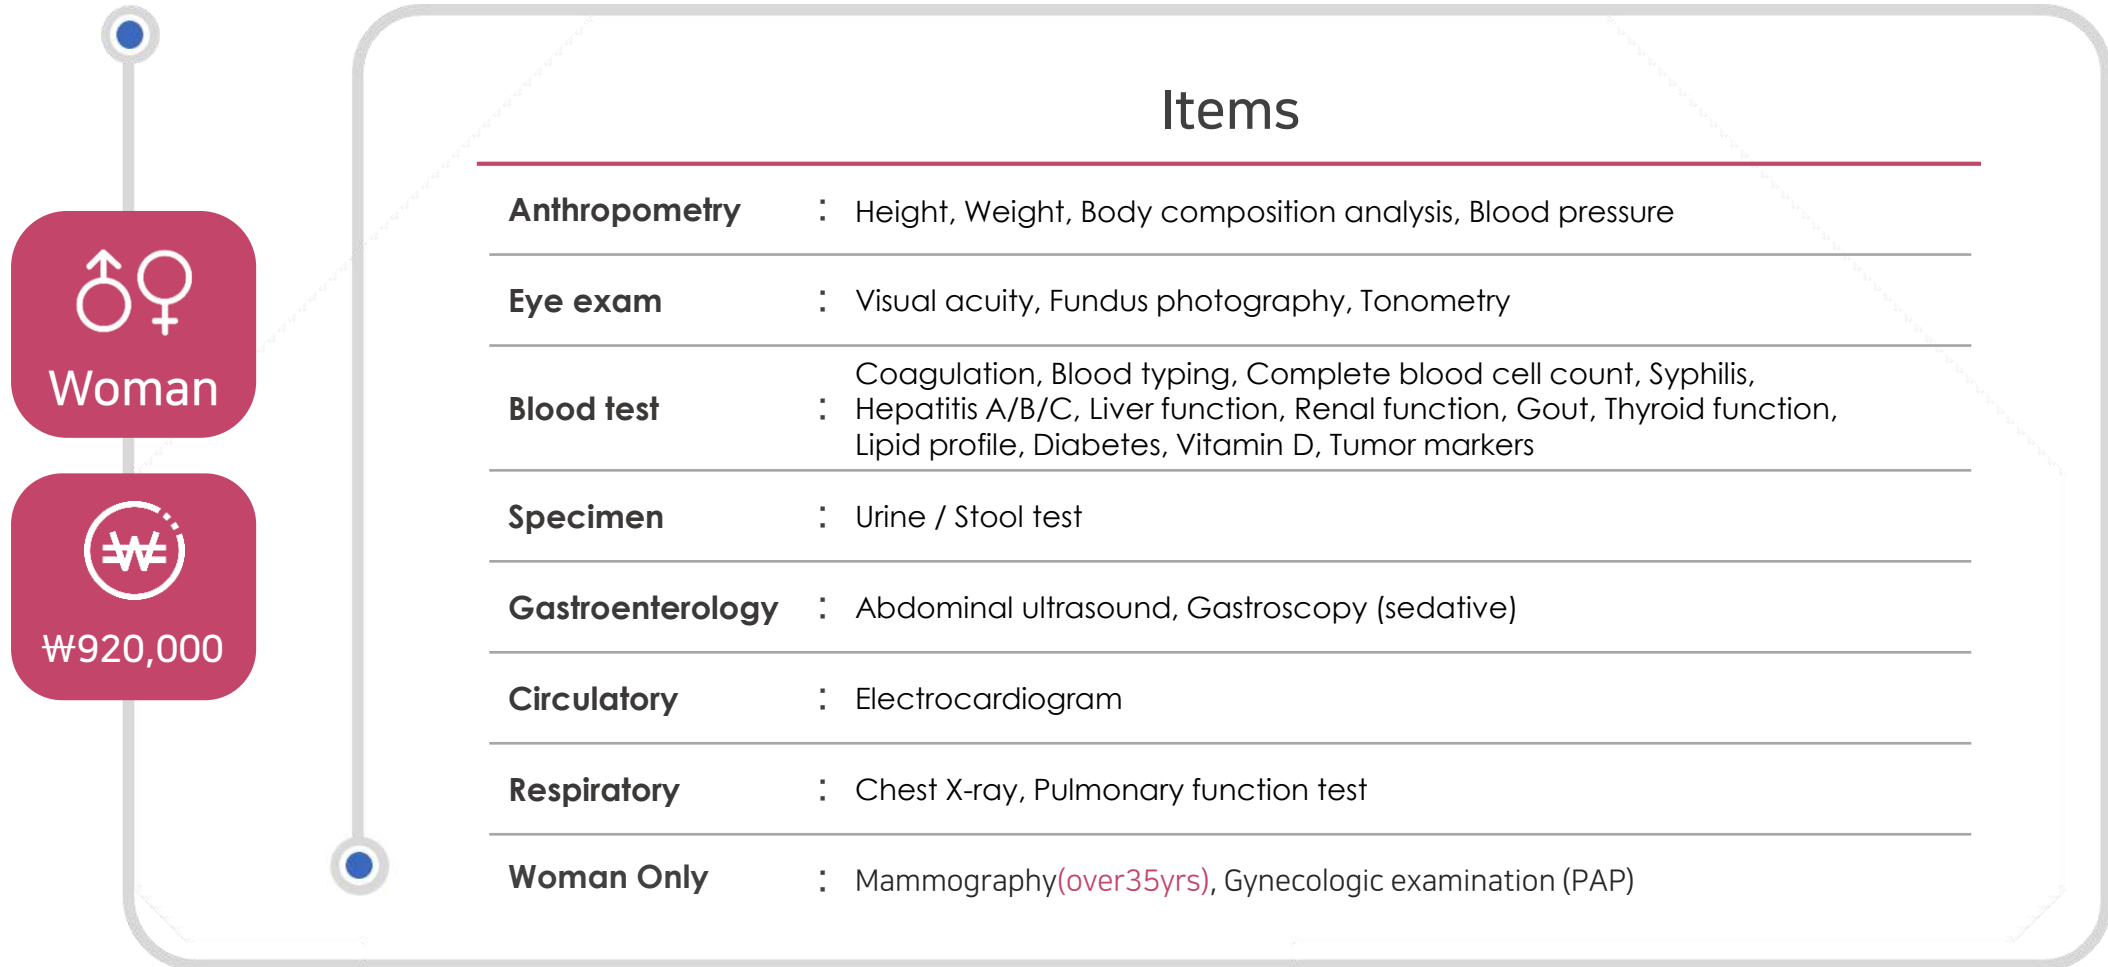

(required time: 2hrs)

The diagram features a vertical line on the left with a blue circle at the top and bottom. Two blue rounded rectangular boxes are attached to this line. The top box contains male and female symbols and the word "Man". The bottom box contains a Korean won symbol and the amount "₩820,000". A large rounded rectangular box on the right, titled "Items", contains a list of medical tests and procedures.

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Gastroscopy (sedative)
Circulatory	: Electrocardiogram
Respiratory	: Chest X-ray, Pulmonary function test

Program [Basic]

(required time: 2hrs)

Woman

₩920,000

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Gastroscopy (sedative)
Circulatory	: Electrocardiogram
Respiratory	: Chest X-ray, Pulmonary function test
Woman Only	: Mammography(over35yrs), Gynecologic examination (PAP)

Program [Comprehensive]

(required time: 3hrs)

Man

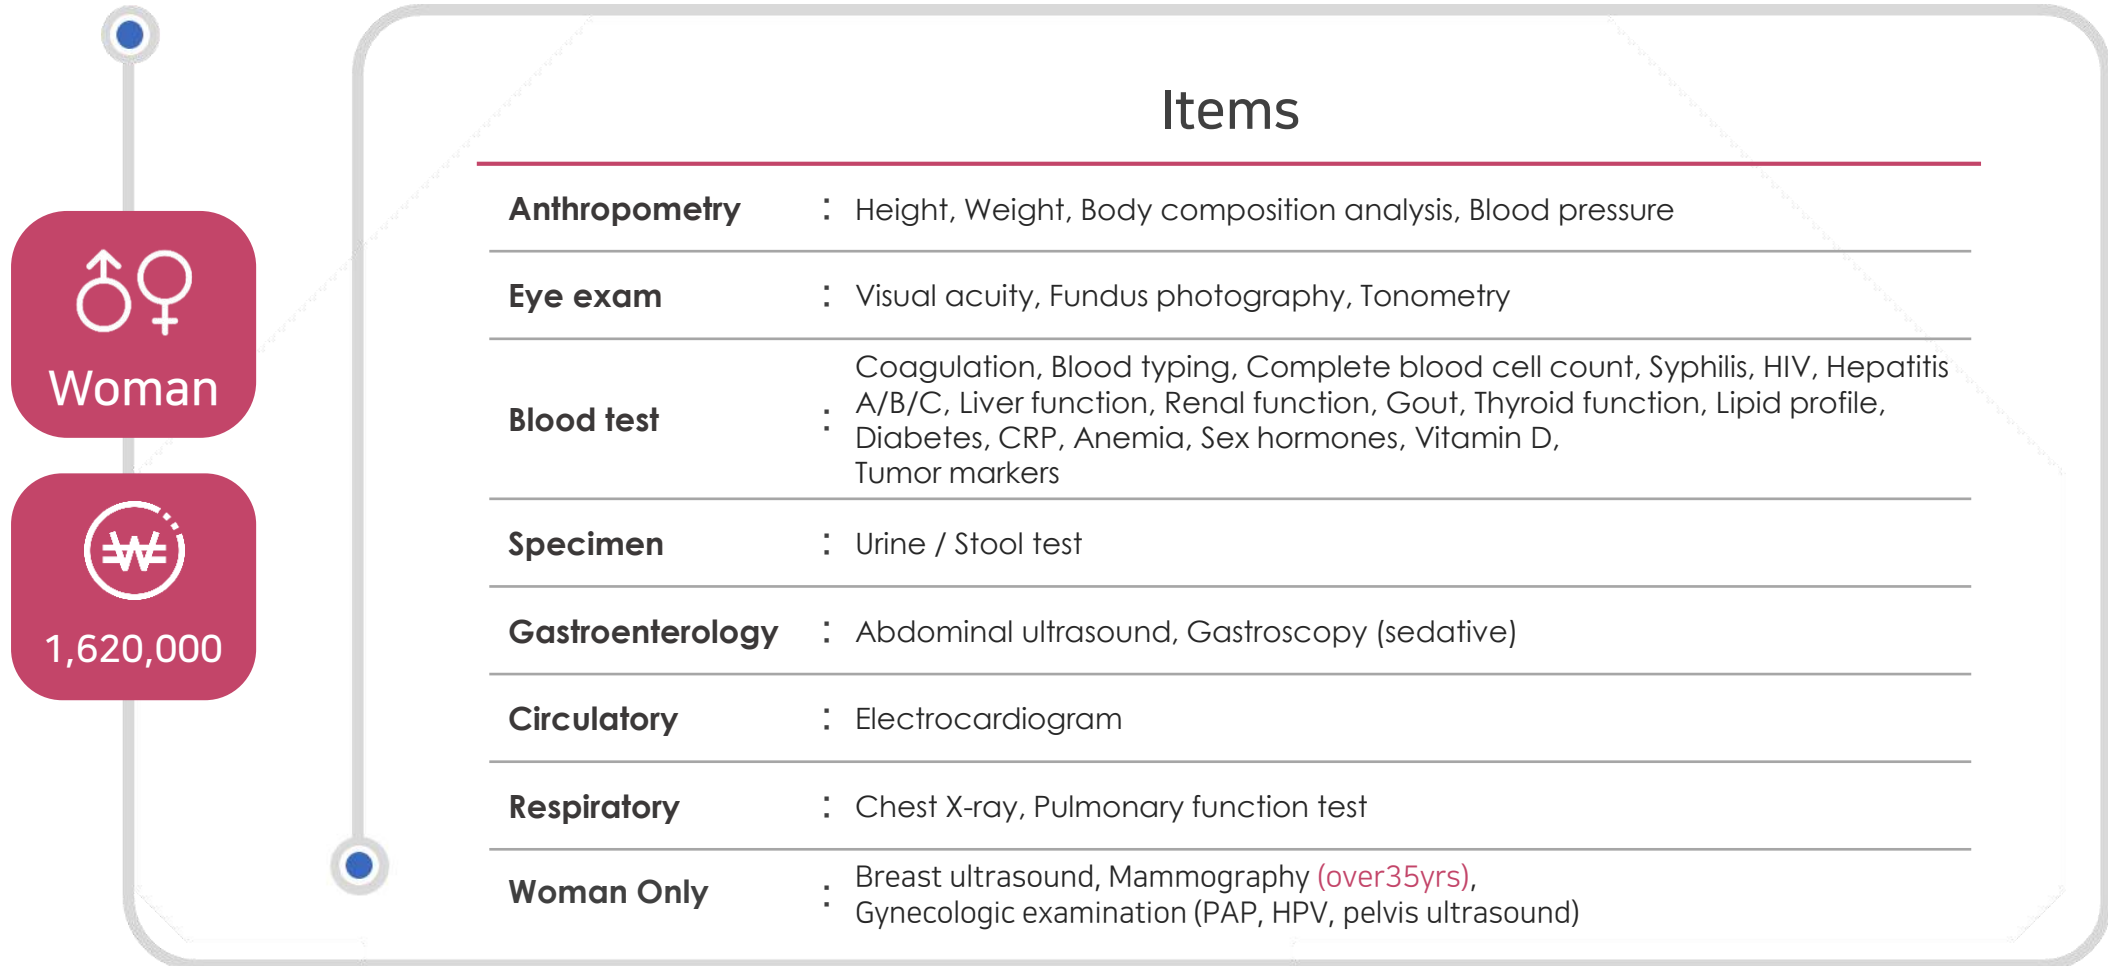

₩1,370,000

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Gastroscopy (sedative)
Circulatory	: Electrocardiogram, Carotid doppler ultrasound
Respiratory	: Chest X-ray, Pulmonary function test

Program [Comprehensive]

(required time: 3hrs)

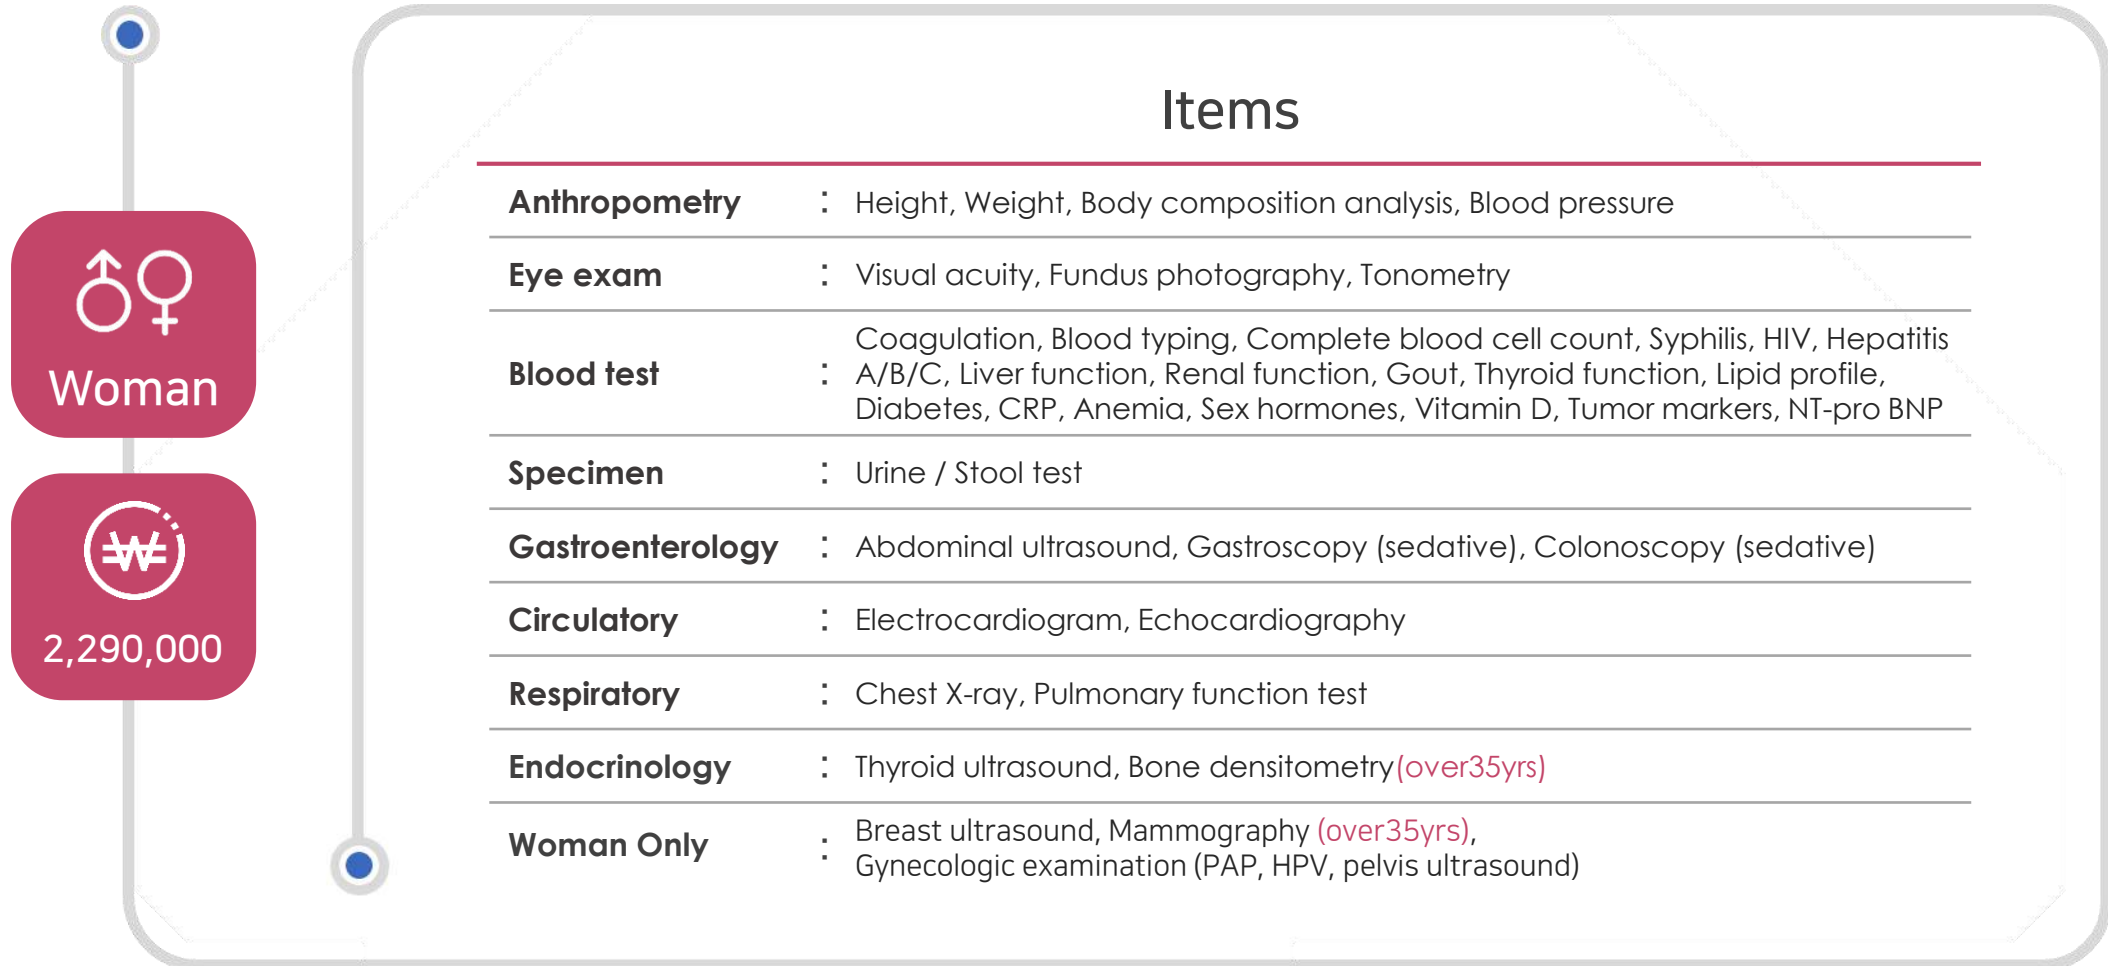

Program [Executive]

(required time: 4hrs)

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers, NT-pro BNP
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Gastroscopy (sedative), Colonoscopy (sedative)
Circulatory	: Electrocardiogram, Echocardiography, Carotid doppler ultrasound
Respiratory	: Chest X-ray, Pulmonary function test
Endocrinology	: Thyroid ultrasound, Bone densitometry(over35yrs)

Program [Executive]

(required time: 4hrs)

Program [Executive on Cancer]

(required time: 5hrs)

The diagram features a vertical line on the left with two blue rounded rectangular boxes. The top box contains male and female symbols and the word "Man". The bottom box contains a yen symbol and the number "2,020,000". A large rounded rectangle on the right is titled "Items" and contains a list of medical tests and procedures, each with a colon and a list of specific items.

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Gastroscopy (sedative), Colonoscopy (sedative), Abdominal pelvic CT
Circulatory	: Chest X-ray(front/lateral), Pulmonary function test, Low dose Chest CT
Respiratory	: Electrocardiogram
Endocrinology	: Thyroid ultrasound

Program [Executive on Cancer]

(required time: 5hrs)

Woman

2,470,000

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Gastroscopy (sedative), Colonoscopy (sedative), Abdominal pelvic CT
Circulatory	: Chest X-ray(front/lateral), Pulmonary function test, Low dose Chest CT
Respiratory	: Electrocardiogram
Endocrinology	: Thyroid ultrasound
Woman Only	: Breast ultrasound, Mammography (over35yrs), Gynecologic examination (PAP, HPV, pelvis ultrasound)

Program [Premium]

(required time: 8hrs)

Man

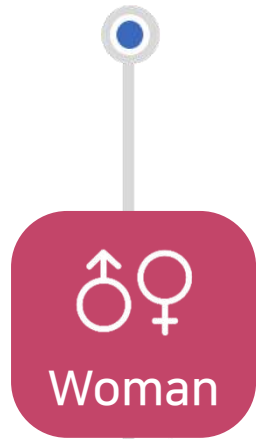

6,120,000

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry, Cataract
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function (Microsomal Ab included), Lipid profile (Apolipoprotein A/B, LDL subfraction included), Diabetes (insulin, C-peptide included), CRP, Anemia, Sex hormones, Tumor markers, Detailed blood test (Thyroid function, Electrolyte imbalance, Cardiovascular disease risk markers, Osteoclastin, CTx serum, Vitamin D, Vitamin B12, Folate)
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Gastroscopy (sedative), Colonoscopy (sedative)
Circulatory	: <ul style="list-style-type: none">Electrocardiogram, Echocardiography, Pulse Wave Velocity,Carotid doppler ultrasound, Coronary artery Ca CT
Respiratory	: Chest X-ray(front/lateral), Pulmonary function test, Low-dose Chest CT
Endocrinology	: Bone densitometry(over35yrs), Thyroid ultrasound
Others	: <ul style="list-style-type: none">Brain MRI/MRA, PET-CT(over40yrs), Dental exam & Panorama X-ray,Audiometry

Program [Premium]

(required time: 8hrs)

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry

Woman Only	: Breast ultrasound, Mammography (over 35yrs), Gynecologic examination (PAP, HPV, pelvis ultrasound)

Additional Items

Items	Cost[W]
Carotid Doppler Ultrasound	187,000
Echocardiography	200,000
Breast Ultrasound	150,000
Pelvis Ultrasound	100,000
Thyroid Ultrasound	117,000
Prostate Ultrasound	170,000
Graded Exercise Test	120,000
Pulse Wave Velocity	55,000
Colonoscopy	195,000

Items	Cost[W]
Brain MRI/MRA	1,390,000
Low-dose Chest CT	155,000
Coronary Ca CT	155,000
Abdomen & Pelvis CT	250,000
Cataract	100,000
Bone Densitometry	50,000
Urea Breath Test	52,000
Cotinine	50,000

Thank You
